

1 in 5
undergraduate students

experienced sexual misconduct, including sexual harassment, sexual assault, dating violence, or stalking during the **2021 - 2022** academic year.

1 in 11
graduate students

During the 2021-2022 academic year, the odds that a **First Year, Sophomore, or Junior** experienced sexual misconduct were about

1.5x

higher than the odds **Seniors** experienced sexual misconduct.

The odds that students who identify as **bisexual, queer, same-gender loving** and/or **questioning** experienced sexual misconduct were approximately

2x

greater than the odds that students who **did NOT** identify as bisexual, queer, same-gender loving and /or questioning experienced sexual misconduct.

To reduce sexual misconduct, students demonstrate respect for their sexual partners...

 **80%**

of sexually active students indicated that **they always value their partners' emotions and sexual interest as much as their own.**

> 70%

of students who identify as **Genderqueer, Gender Non-conforming, Nonbinary, or Transgender** always explicitly asked a potential sexual partner for consent to engage in sexual activity*

*a higher percentage than students who do NOT identify as genderqueer, gender non-conforming, nonbinary, or transgender
