

SEX DISCRIMINATION & SEXUAL MISCONDUCT RESOURCES & REPORTING

Sexual misconduct undermines the academic prospects, working conditions, living environment, and health of members of our campus community. Princeton University is committed to ensuring that all of its members can learn, work, and thrive in a safe, supportive, and fair environment, free from sexual misconduct and other forms of impermissible discrimination. Please see below for information on resources and reporting options related to sexual misconduct.

CONFIDENTIAL RESOURCES

Individuals who have experienced or witnessed an alleged incident of sex discrimination or sexual misconduct have many options, including consultation with a confidential resource and/or filing a complaint (internal and/or criminal complaint).

Deciding among these options can be difficult, and individuals are encouraged to seek assistance from a confidential resource before deciding how to proceed.
